**Established
1992**

**Registered
Educational
Charity**

Rural-based, dedicated to providing performing arts opportunities of the highest standard.

Dance, Theatre, Performing Arts Outreach Programs

It's not just about learning to dance or act or sing, the SPACE is a place for self-discovery. It's a place where young people learn to turn dreams into attainable goals; a place where the feelings and energy within oneself can be expressed through movement and voice and other performing arts. Supporting the SPACE shows that you invest back into the rural community. It shows that you value the lifelong impact that participating in performing arts has on people of all ages.

The SPACE a place that brings the world of performing arts to children, youth, adult and seniors through classes, workshops and performances including voice, dance, theatre, and much more.

Educational charities open doorways to greater knowledge and exposure, enhancing lives whether it be a short term or assisting a life long path.

Performing Arts, whether you are singing dancing or acting, 2 or 92 there is something for everyone!
